## EXPLORING

### Market Street: 1.1 Miles from Hotel

This outdoor retail complex boasts more than 90 stores and eateries! Alongside upscale shops, you'll discover plenty of casual options like Starbucks and True Foods. A charming area with artificial grass serves as a popular spot for picnics and family playtime. I enjoy picking up a snack or drink and unwinding at one of the tables nearby.

### Waterway: 1.2 Miles from Hotel

These beautiful waters serve as the heartbeat of the city, meandering through the heart of The Township before flowing into Lake Woodlands, linking all the attractions along its route. Residents and visitors alike kayak its gentle waters, dine along its banks, and witness stunning sunsets from its shores. This area features a variety of dining options, accommodations, and outdoor green spaces. I relish strolling beside the water, where uniquely crafted park benches invite moments of pause and reflection. The grassy expanse provides an ideal setting for quiet introspection.
