

## Events and Outreach Facilitator

This person is passionate about seeing the small group come together beyond the meetings of the group. They want to engage in deep relationships and help the group reach people for Christ.

The Events and Outreach Facilitator:

- Helps the group get together outside of normal group meetings. This could be the whole group or just a few people, and could be things like meals together or going to events.
- Is passionate to think through opportunities for the group to serve together.
- Is the coordinator for group-wide outreach events, whether it's something Harvest is doing through all small groups or an idea the group comes up with to engage neighbors/friends who do not know Christ.
