

# Food Facilitator

## Food Facilitator

This person loves preparing and sharing food, and is willing to coordinate various opportunities for food to be enjoyed within the group and as a means of serving one another.

The Food Facilitator:

- Enjoys preparing and bringing snacks for the small group
- Is in charge of encouraging others to bring a snack if/when interested
- Helps coordinate the group meals when they occur - starts the email/communication stream, decides on a theme if applicable, and makes it a fun thing to do
- Keeps an ear open for opportunities to bless other group members with meals (things like surgery recovery, or a group member having a baby, etc.)
