

CARTONIZER

Efficiently packs cartons with shoebox gifts, accurately counts and labels how many shoebox gifts are inside each carton, and prayerfully prepares each carton for delivery.

1 Pack

Efficiently and carefully packs shoebox gifts into each carton with the first layer packed vertically and the top layer horizontally. Make sure the carton is not over-packed or bulging.

2 Gifts-in-Kind

Sometimes donors will bring in loose items not packed in a shoebox gift. Those items should not be added to shoebox gifts, but rather placed in a carton with the Filler Item Label.

3 Count and Label

As the cartons are filled, count the number of shoebox gifts and carefully write the number in the designated box on the side of the carton.

4 Tape

Once the shoebox carton is labeled, the carton should be immediately taped closed. Only two strips of tape are necessary to secure the bottom of the carton and only one strip is necessary to secure the top.

5 Pray

Pray for the shoebox gifts' safe transport and arrival at their final destination. Pray that the children who open the gifts will know that our God sees and loves them.
