

BOAT OF BELIEF

EXAMPLE

- 1: Fold a piece of paper in half, short sides together.
- 2: Draw a semicircle with the straight part on the folded edge of the paper. Extend it across the whole paper.
- 3: Unfold the paper and cut out the drawn half of the paper, including along the fold line. This is the hull of the boat.
- 4: Write *God knows my real fears* and decorate the hull of your boat.
- 5: Cut a triangle out of the other half of your paper and decorate it like a sail.
- 6: Glue the sail to the top of the craft stick and the back of the hull to the bottom of the craft stick.
