VERSE

You left your throne of glory from above
Your life revealed the kingdom yet to come
You are freedom for the captive and the poor
As much as we could ask you promise more

CHORUS

We need your power, power
Wonder-working power
Power that we cannot comprehend
We need your power, power
Wonder-working power
Jesus move in power once again

VERSE

As you lead us to the promise land
We look for help provided by your hand
To you alone we're lifting up our eyes
We're trusting you by faith and not by sight

BRIDGE

In every miracle and story
You get every bit of glory
We have seen the power of the risen lamb
You will raise the dead to life
You will give the blind new sight
Oh to see the power of the risen lamb

BRIDGE 2

In every miracle and story
You get every bit of glory
All praise is rising to the risen lamb
You will raise the dead to life
You will give the blind new sight
Oh we'll see the power of the risen lamb
