

January 2021

Hi dear Grace Church family

Greetings and blessed Happy New Year!

How are you both?

We are fine and J. is getting better from gallbladder surgery. Thanks so much for your prayers for her and for us.

We love you and our dear Grace church! Your prayers and love have blessed us so much. Thank you for your great Mission partnership with us. We are so grateful to you.

We started a new church service last Sunday in our place. We plan and pray to reach people in our community. Now I will be taking care of two small churches. I have a leadership team who will work with me. I mentor them and will give more teaching and training to our leadership team.

I have started my virtual mentoring to my Asia group and teaching USA group. Please pray for me. I will have another mentoring group with my church leaders. We had paused that due to lockdown and soon we will start it. I meet with them twice a month only.

We are still doing relief work. We will do some more.

Please continue praying for J. complete recovery from the gallbladder surgery and for our good health.

We need your prayers for the need of completing our building so that we can start soon the residential training for Pastors and leaders. Now we do short term training's only.

God willing, we will see you soon again and we love to have you with us

We love you.

In Him,

Y and family
