2. True/False:

\_\_\_\_\_ The early church was committed to the instruction of the Word – they were hungry for the Words of God, to understand all that He had accomplished for them through the work of Jesus on the cross.

\_\_\_\_\_ The early church was committed to fellowship with one another – meaning they were in or a part of the lives of one another. Part of their fellowship with one another included eating together and praying together.

\_\_\_\_\_ The early church was committed to worship – praising God together for all He was doing in their lives personally and corporately! This should be the focus and passion for our worship.

\_\_\_\_\_ The early church also, by the grace of God, was enjoying favor or acceptance in the community at large, and because of that response, individuals in the community were drawn to Jesus because of their transformed lives and interactions with one another in the church.

4. What four objectives govern what we do and how we do it? [Hint: 4 E's]

**Our response to the Word of God is critical, because the Word is the means through which the church body (the individuals) is supposed to be shaped!**
