### DETAILS FOR THIS TRIP:

Salt Lake City is the capital city of Utah and the center of Mormonism. Temple Square is a 10-acre complex where people gather for conferences and to learn the history of Mormonism while visiting one of the original Temples. The true gospel needs to be boldly proclaimed in a state that is nearly 70% LDS.

#### **Our time in Salt Lake City will be spent focusing on these opportunities:**

**Evangelism** – Working with Utah Partnerships For Christ (UPFC.org), we will be in the heart of Mormonism and focused on connecting with individuals and sharing the gospel. Conversations and dialogue will be a major part of our trip. This will take place in various locations including Weber State University, Temple Square, and local gathering spots.

**Service/Outreach** – Part of our time will be spent serving local churches and UPFC in various ways. In the past we've done door to door outreach, painted and refreshed areas of a church, done yard work and spring cleaning, and other similar projects.

**Learning** – While in Utah we will have the opportunity to hear from people that have spent their life ministering to Mormons and some who were former Mormons themselves. It's a great chance to learn more about witnessing and sharing the gospel in this specific context which translates directly to Southern California which has the second largest population of Mormons in the country.

**Encouraging local believers**– At times we have had opportunity to sit with and encourage believers in the area who have the unique task of living in Utah as believers among Mormons.
