

MACS K-4 Curriculum Overview

Our Elementary program features a Christ-centered curriculum that is designed to challenge your child and help them grow in all aspects of their life. Our Teachers develop their lessons to ensure that each student can succeed. Here are the subjects that are a part of our elementary program:

Bible

Our Bible classes aim to introduce children to the gospel and guide them in developing a personal relationship with Christ. Lessons are designed to instill a Biblical worldview, equipping students to navigate life with faith, integrity, and purpose.

Through engaging activities and discussions, children learn to see God's truth in every aspect of their lives.

Reading

Our reading program features carefully chosen selections that reflect wholesome values, timeless themes, and Biblical principles. Students are guided in comprehension and critical thinking, helping them analyze literature while applying its lessons to their lives. By fostering a love for reading, we encourage students to grow intellectually and spiritually.

History

Our history curriculum highlights God's sovereignty and His hand throughout history. Students gain a deeper understanding of how His truth shaped the past and are inspired to fulfill the Great Commission by impacting the future.

With a Biblical perspective, students learn to appreciate history while preparing to make a difference in the world for Christ.

Math

Math instruction at Minerva Area Christian School emphasizes both mastery of concepts and the recognition of God's perfect order in creation. Through problem-solving and critical thinking, students develop a solid mathematical foundation while growing in their understanding of how God's design is reflected in numbers and patterns.

Science/Health

Our science and health programs encourage students to explore God's creation with curiosity and wonder. Using the scientific method and hands-on learning, children discover the intricate design of the natural world, always recognizing God as the Creator. We aim to develop both scientific knowledge and a sense of responsibility for caring for God's creation.

English

Our English curriculum integrates the best examples of literature with a Biblical framework, emphasizing communication skills and discernment. Students build strong foundations in grammar, writing, and speaking while learning to evaluate ideas and express themselves with clarity, grace, and truth.

At Minerva Area Christian School, every subject is an opportunity to glorify God. We are committed to providing a personalized, Christ-centered education that helps each child grow academically and spiritually, equipping them to shine for Christ in every area of life.

MACS benefits include:

Daily Bible teaching and weekly Chapel Service led by Pastor Zach Long

After-School Study Hall (1st - 8th Grade)

Summer Program (Math & Literacy Tutoring)

Small class sizes

1 on 1 Tutoring and Intervention Available

1 to-1 student Chromebook program with all students having their own Google Accounts and Google Classroom

Enrichment classes World Culture, Art, Library, Music and ASL

Extra-curricular activities including Bible Bowl, ASX, Basketball
