## Question One

### **What is the additional land for?**

The additional land is the key to any future growth at NCC. Our current parking is already limited on a Sunday morning. If the church grows at all moving into the future, our current parking lot will be insufficient. Additionally, if we were to ever need to build onto our current building at all (beyond the educational addition currently being proposed), this would necessarily consume even more parking thereby creating a significant challenge for our church's ability to worship. The new property is essential to avoid this problem in the future.

Since the Lord has abundantly blessed us with an amazing price point on the new property currently under contract, we are asking how we can use that property not only for the needed parking space, but also for how we can use it to enable our church's fellowship and enhance our impact on the local community.
