

Notice of Photography, Video, and Livestreaming

Restoration Church frequently photographs and records videos including livestreaming—during worship services, programs, and church-sponsored events. These images and recordings may be used by the Church for promotional, informational, or educational purposes, including printed materials, the church website, social media platforms, and livestream platforms.

By participating in or attending church events, you are acknowledging and granting permission for Restoration Church to use your image or your child's image, unless you submit this Opt-Out Form.

Purpose of This Form

This form is intended **only** for individuals or parents/legal guardians who **do not** grant permission for their likeness—or their child's likeness—to be used in any photography, videography, or livestream recordings.

If you do not submit this form, it will be assumed that you grant general permission for use as described above.

Restoration Church also offers **designated areas for private worship** for those who prefer not to appear in any photo or video materials. If you would like to worship in one of these spaces, please speak with a **Greeter or Welcome Team Member** upon your arrival, and they will be happy to assist you.

Please note: While the Church will make every reasonable effort to honor this opt-out request, signing and submitting this form *does not guarantee* that you or your child will never appear in photos or video. If you or your child enter areas where livestreaming or photography is occurring, such as the Worship Space—Restoration Church will not be held liable for incidental inclusion in media content.

This form will remain in effect until the individual or parent/guardian submits a new form to revoke their opt-out request.

Opt-Out Request

Please complete the appropriate section below to opt out of photo, video, and livestream consent.
