

Urbina Olaya Family – Liberia Guanacaste
October 2020

Dear brothers, a warm greeting in Christ!

It is a blessing to send you these words in this way.

We know that this has been a strange year for the Christian life in the community and much more for church planting. However, we must say that by Lord's grace, the work continues, trying to bring as much knowledge of Christ to as many people as possible.

During these months, by the grace of God also, we have contacted new people through social media, and we have had the blessing of open an online evangelism course, in which participate people and families from different sectors of the region of Guanacaste, the province in which we are working, with its headquarters in Liberia, Guanacaste.

I ask you to pray as we are reaching the end of two months of evangelization with them, and we hope that we may collect converted souls who glorify the Lord in spirit and truth in God's grace.

Work with the more mature Christians is moving forward too. I ask you to pray for the marriages like the Rodríguez family and the Camareno family. By the grace of God, both couples have found the path of forgiveness and grace. Help us to keep praying for them and for the Lord to consolidate and strengthen their lives. We have worked by their side a lot so pray for them continuously going ahead in the Lord.

The sisters have also had their times of revival, reading and exposing themselves to the Word with the help of sister Zulay Urbina (my sister in blood too), who strives to live, reading and teaching other sisters, some young and others older than her, but to whom, by the grace of the Lord, He has sustained.

Lastly, please join us in praying for my family. My wife has been presenting a strange clinical condition development, she is stable, but her health has not been the best. My children will be rendering their academic tests in November month, and we expect good results;

Keep praying our faith not fail, for us to keep following Christ with devotion in our lives. For example, Emanuel has reached a mature age as for the culture and the State. However, we are continuously directing his heart like with a child in Christ. Pray for all of us, please, that we speak the Word as it should be.

Some precise points to pray:

- The return to the congregational communion. For the God of peace, removing fears and attract the souls.
- Due to the socio-political situation in Costa Rica, chaos and unemployment are incredible in our country.
- For the salvation of souls, for God may grant us to see fruits of repentance and life in those with whom we work.

A warm hug in Christ from a distance!
