

# DOWNTOWN COMMUNITY CHURCH

---

## DOWNTOWN SUMMIT.

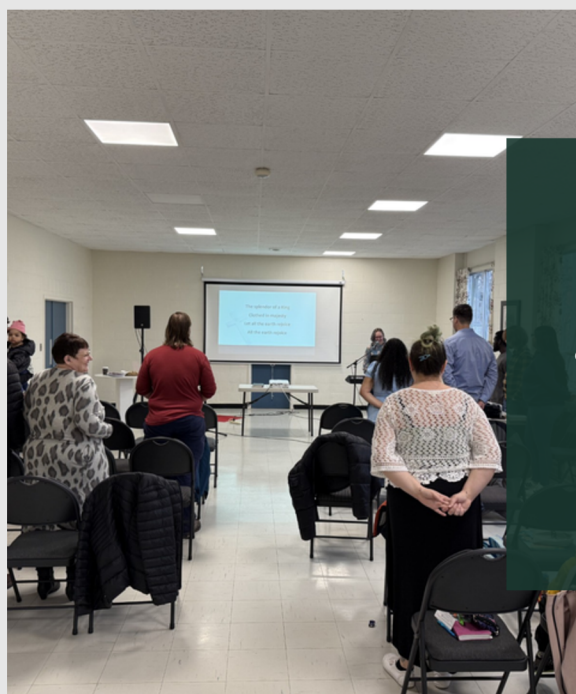

The downtown business association held a summit to invite organizations and businesses to discuss the issues with our neighbourhood. Jasmine Harpur and I were able to attend and made some great connections with business owners.

It was great to hear the views of owners and their concerns with the neighbourhood. We were also able to sit with and engage with businesses who otherwise wouldn't agree with us. It was a great opportunity to show we care for the community as a church and don't just care about "filling our pews."

## APRIL SERVICE.

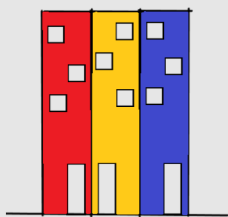

We weren't sure how many people we would get on Easter Sunday in the afternoon. We pushed ahead and had a very busy Easter weekend (we joined with Calvary for Good Friday). Our service ended up having a great turnout!

We had 17 people come out and we also took communion for the first time as a church downtown. I took a break from our series and preached a message on Jesus's resurrection. I was extremely encouraged at our attendance and how people are stepping up to serve.

*We have a  
hope that  
will not  
disappoint  
and it's  
found in  
Jesus.*

## SUMMER BASKETBALL CAMP.

If you remember, we had the hopes of doing a Spring Basketball Camp back in March but were unable to find a venue. We've just received word that we have been approved to use one of the elementary schools close to downtown!

We're very excited and are working hard to produce a camp that is high quality and low cost to parents. Our goal is to have 30-40 children, teach them the basics of basketball, and show them how the gospel is relevant both on and off the court.

Please pray for us as we continue to plan and promote this event! This is a huge undertaking for us and will be our first attempt at a camp in our neighbourhood.
