

Elliot Miles SCA August Update

St. John's Regatta and Construction Team

In the month of August, I had the opportunity to participate in our city's Regatta. It is our annual boat race, where people from all over the country come to St. John's.

Mile One Mission and Calvary Baptist Church were able to pass out water and popsicles to people passing by. We were able to have conversations with people and invite them to our local neighbourhood churches. We also had a four man construction team from the states help us during the regatta and repair things at Calvary Baptist Church. We are eternally grateful to work and partner with Stanleyville Baptist Church.

At Mile One Mission, we are training to invite people into our lives and to learn more about the context of our community.

Downtown Community Church Preaching.

One of Mile One Mission's church plants recently began holding weekly services. I was able to help set up for one of our church planters and preach at his church.

Downtown Community Church is one of our church plants, located in the heart of our city. August 16, we had 14 people come to worship God through music and listen to the preaching of God's Word.

It was wonderful to be able to visit and see how Downtown Community Church functions and to be part of what God is doing there.

Calvary Baptist Church VBS

At the end of the month, I had the joy to help lead and run Calvary Baptist Church VBS. We had 28 kids sign up for the evening VBS.

God has done a great work not only in our kids and families but also in our leaders. We had about 20 leaders serve with a lot of our youth leaders stepping into leadership.

Prayer Request

- Pray for Me and Carrie as we are going to Toronto for our SEND Network Assessment. We are excited for our next phrase in church planting here in Newfoundland .
- Pray for the baby. We are in the 2nd trimester and are excited to start our family soon

- Pray for Calvary as we are in the process of renovating our parking lot.
