COSEPEL CHURCHES FOR NEWFOUNDLAND AND LABRADOR

November 2022 Report

Greetings from Newfoundland and Labrador! This month we had our first service in our new building! I also preached and attended my church planter assessment in Toronto.

Downtown Community Church

We had our largest Bible study ever this month! 7 adults in total took part in one of our Bible studies going through the 'Problem of God' series by Mark Clark. We've made new connections with others in the community and want to engage with them more, especially as we go into the Christmas season. Please pray that God would grow our little Bible study to reach more lost people downtown.

First Church Service in New Building

This month Calvary Baptist Church had its very first service in our new building, we had 169 people in attendance, the largest in our church's history! Since we moved to this location, we have consistently seen more and more new people come out to church! Please pray that we could be a blessing to our new neighbourhood and that people will come to hear about Jesus through us.

Church Planter Assessment

This month I went through my church planter assessment with the Send Network in Toronto. They assessed my ability to be a church planter and focused in on a variety of topics such as preaching, leadership, spiritual health, discipleship, vision casting, etc. It was an intense but very enjoyable couple of days being surrounded by men and women who love Jesus.

Preaching

This month I also got to preach at Calvary. I preached from Galatians 3:10-14 all about the concept of 'we are blessed because Christ was cursed.'

Rugged Theology Podcast

There are 2 new episodes of Rugged Theology this month. You can find it on Spotify, Apple Podcasts, or on our website.
