

Dear Crosswind

Greetings and happy new year to you. We praise God for His grace for the New Year. We trust that the lord will continue to bless and be with us throughout the New Year.

December 2024 witness some cruelties against humble pastors and some tribal church members who faced humiliation and persecution on the Christmas day. Some of our believers and pastors were terrified and worried about how to protect the persecuted friends where as in the other other hand the whole world was busy celebrating the birth of Jesus Christ.

Two pastors knelt under the sun in a market place since a morning till the afternoon and then taken to police station on the charge of religious conversion. They are now released on bail. There are several others who suffer the same. We have no vice, no leaders, no people with good heart to help as such pastors to help here in our place. Please for them please. They need help.

Two sisters cooked food, made little cake and invited nonchristians friends to celebrate the joy of Christmas but this was misunderstood by a fanatic group who severely tortured, humiliated, kicked in private parts and so on. They tied them on a pole in the street and applied cat latrine on face. I have the video clips. Please pray for more strength to sisters in Christ to stand strong in the midst of persecution.

Hundreds of groups supported by Member of Parliament who persecute and they are fearless because no harm done to them at any cost. Police, ministers, authorities are their strong supporter. We need more strength and courage to face and march on no matter what.

Continue to pray for us and work alongside and encourage us by words and prayers.

Below are some pictures from the pastors who wanted me to send their pictures to you. Pray for them. They are and their churches praying for you and your country daily.

Thank you again for your love and care and prayer and support. Let us continue work together now and every day.

Sunny & Kuni

PRAY FOR:

1. Pray for our protection/Safety.
2. We need more strength and courage to face opposition.
3. Those who are authority to deal with us softly as per the laws.
4. Needs for the projects to continue the ministry in 2025
5. Need some special projects like social development projects through which we can reach to the unreached and proclaim the Gospel.
6. Since 2014 it has been impossible to proclaim the gospel directly.
7. Need some church buildings for the tribal congregations.
8. Need to drill wells as many as possible to give access to good drinking water for the village community.
9. Pray for me as I too have some essential needs to support my family.
10. Pray for my children's education. Jack my ender son will be seeking his admission in a reputed university in the next couple of months.

Thank you for praying and supporting us last year. We request the same to continue this year also. Thank you for every good things you have done to us. May the lord bless you and your families.

Shalom!
Sunny
