

## Cherished Again Purpose Statement

To be a light in the community through the donation and sale of quality goods, while generating awareness and continual financial support for Cherish House.

## A Cherished Evening

On Sunday, June 1 our annual Cherished Daughters Dance was held at the Roof Garden Ballroom and Arnolds Park Amusement Park. Girls of all ages were in attendance with their fathers, grandfathers, and/or other positive male role models. The girls were made to feel like royalty as they rode down Lake Street on a carriage ride, which was a highlight of the evening!

This enchanted evening would not have been the success it was without the financial support of area business, service clubs, and the assistance of volunteers. Thank you ~ you are all truly cherished!

### GENERAL SPONSORS

OTHER GENEROUS DONORS:  
• Delaine Kreykes • Mike & Mona Scaletta  
• Doug & Jennifer Otto • Marilyn Strickland

## A Noteable Thanks to:

- The Good Neighbors Fund of Okoboji and Spirit Lake for their generous donation towards our Request for Care program at Cherished Again thrift store.
- Kindermusik at the Lakes for organizing a drive of new supplies and gently used household items to benefit our moms and their children at Cherish House.
- Ferguson's Gardens and an anonymous donor for the beautiful hanging flower pots donated for the front porch at Cherish House.
- Good News Community Churches in Okoboji and Estherville for doing a Baby Bottle Campaign during the month of June.

## Travel Tips

To make your summer travels with children go smoother, keep your little kids entertained with small, safe toys and familiar comfort items. Pack toys without detachable pieces so you're not having to go digging between your seats once you arrive! For older children coloring books, twistable colored pencils, and paint-by-sticker books are great things to take along, and road trip bingo is great for bigger kids. Plan for frequent breaks and movement to manage their restlessness, and consider adjusting the itinerary to allow for their energy levels and nap schedules.
