

**DAZZ Medical Services Orangeburg SC– Joy Yarborough CEO**

**Ministry Focus**

Dazz Medical Services is a life-affirming pregnancy care center committed to sharing positive alternatives to abortion to men and women who find themselves in an unplanned pregnancy. We provide free pregnancy tests, ultrasounds, counseling, parenting classes and baby needs. Post abortion healing is also offered.

**Strategies for Sharing the Gospel in this Ministry:**

We have the opportunity in all of our counseling sessions to share the gospel of Christ with each of our clients. A personal relationship with Christ is fundamental to lasting change and victory in our clients’ lives. An understanding of the Lord’s plans and purposes for themselves and their babies is fundamental to choosing life. Since opening our Dazz office, the Gospel has been shared hundreds of times and 57 women have made new professions of faith in Christ.

**Financial Needs:**

We have limited paid staff at our Orangeburg office. It is necessary to have a staff nurse on at all times and of course the cost of renting the facility is significant. We have need for monthly donors and large one time donors to cover the cost of the mission.

**Prayer Needs:**

Pray for increased support for the Orangeburg center  
Pray for more volunteer peer counselors to work directly with clients

**Short-term Mission Opportunities:**      Yes      No

Church members could make this center a part of their regular prayer efforts  
Members could collect diapers specifically for this location
