

Water Mission – George Greene

Ministry Focus:

Water Mission is a nonprofit Christian engineering organization that designs, builds, and implements safe Water, Sanitation, and Hygiene (WASH) solutions for people in developing countries and disaster areas.

Strategies for Sharing the Gospel in this Ministry:

Church Strengthening; Community Development; Evangelism; Humanitarian Aid; and Leadership Development.

We are driven by our faith in Jesus Christ who is the living water, and our belief that God never intended for some people to have safe water and others to suffer. We believe that the sustainable solutions we deliver are a way of doing God's work and restoring what He intends for his children. Since 2001, Water Mission has used innovative technology and engineering expertise to provide access to safe water for more than five million people in 56 countries. Through these safe water projects, we're able to share the Living Water message of Jesus Christ with countless people and see lives completely transformed.

Throughout all our projects our staff is given opportunities to share the Gospel in authentic ways as, "engineers get invited where missionaries don't". We are able to have large outreach events in large refugee camps, and we partner with local churches whenever we can.

Financial Needs:

Disaster Response is one of Water Mission's top priorities for 2020. Following natural disasters, access to safe water is the most critical need for survival and recovery. Water Mission has responded to disasters since its founding in 2001, but we hope to do more than ever before. A gift of \$10,000 would allow for us to deploy a Living Water Treatment System, which would produce 10,000 gallons of safe water every day.

Prayer Needs:

1. Please pray for our staff, volunteers, and partners who have worked to provide safe water in Honduras following Hurricane Eta and Iota.
2. For spiritual and physical protection for Water Mission staff, their work, and their respective places of operation and rest in Honduras.
3. For our global upgrade of databases and systems, that the Lord will guide and anoint every detail, task, and staff member involved.
4. For open positions, in our Charleston headquarters and in-country offices, that God may call the right people to fill these roles.
5. For our partnership with UNICEF to implement safe water projects in communities hosting refugees in Tanzania.

Short-term Mission Opportunities: Yes No

- Volunteering – being that we're close to St. Michael's, we'd love to plug in members who would be interested in giving their time.
- Participate in, and fundraise for the Charleston Walk for Water. It's our largest event of the year and it would be such a blessing to see many of our friends from St. Michael's there.
