

As you read: Remember the **S.O.A.P.** Method:

Scripture: While doing your daily devotions or following a reading plan. Take some time and allow God to speak to you. Make a note of any verses that catch your attention.

Observe: What do you think God is saying to you in that verse? Ask the Holy Spirit to reveal new things to you. Look for Jesus in the story. What is God doing?

Application: Apply what you have read to your own life today. Perhaps it has taught, encouraged, corrected you. How will we live differently?

Prayer: Ask that God would help you understand what He is telling you and how to act on His word. Listen to what He might be telling you in light of this Truth.
