

## **3 Skills in Developing Relationships ...to help each other as you are on a team**

1. Ask Questions. Rather than just talking to people, asking questions is a way you can learn about others, and it can help you know how to help them. Ask about their job, family, school, where they grew up, things they like to do, etc.
  
2. Listen. Listening lets them know you care. Learn to become a great listener. Hear what they are saying rather than thinking about what you want to say next.
  
3. After we Ask Questions and Listen, Share Your Life with them. We want to be real and authentic with our lives, our conversations, and what we are experiencing. You can share about the parts of your life that connects with them.

Be intentional and become a master of these skills
