

# Journey Kids Reopening Plan

## Guidelines

### Health

- All staff, volunteers, and families will wear a face covering while in the building.
- Please stay home if:
  - You exhibit any of the following symptoms: temperature of 99.4 or higher, chills, cough, shortness of breath, fatigue, body aches, headache, loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, diarrhea.
  - You have had contact with anyone who has Covid-19 in the past 14 days
  - Have had a positive Covid-19 test within the past 14 days
- Please do not bring items from home with you to Journey Kids. A labeled water container is acceptable if required for your child. The container will be sanitized upon entry.

### Check-in

- To avoid congestion, one adult should check the family in when possible.
- Maintain social distance while waiting in line by standing on the designated floor spots.
- During the check-in process, volunteers will perform a touchless temperature check for each child. Children with a temperature of 99.4 or higher will be asked to return home for the day.
- Health screening questions regarding Covid-19 will be posted at each Check-in station. Families showing symptoms or who have been exposed will be asked to return home for the day.
- Please do not remain in the hallway area during drop off or pick up time.

### Check-out

- Adults do not enter the room, but do go directly to the classroom exit door and show their pick-up tag.
- Please do not remain in the hallway. Use the outside exit door in the Journey Kids wing to leave the building. Enjoy any visits with other families outdoors.
- Don't forget to remove your child's name tag!

### Sanitation

- All classroom supplies and toys will be sanitized prior to arrival.
- Labeled containers are provided to separate clean and dirty items. Containers will be kept out of the children's reach.
- A drink or snack will not be provided at this time.
- High-touch areas will be sanitized often.

## Caregiving

- Although we will do our best to space kids apart and keep their hands to themselves, strict social distancing may not be possible with this age group. Because of this, all adults and children are required to wear a face covering while indoors.
- Families:
  - We recognize a young child may not correctly wear a face covering 100% of the time, but they need to be progressing toward that goal for the time they are with us. We will offer reminders and encouragement.
  - If a child is unable to keep their face covered regularly, the family will be notified to pick up their child and try again another day.
- If children need to be hugged or held, we will do so while maintaining as many health guidelines as possible.
