

THE BIBLE AS ONE STORY

RESOURCES

These resources can help you get a handle on the overarching story of the scriptures. Having this framework will help give context and meaning to any book or passage in the bible. This will help you both understand and meet God in His word.

- ESV Study Bible — short article in the front titled, “A Survey of the History of Salvation”
- There is no substitute for reading the bible. Use any of the “Personal Bible Study” guides on this Resource Page to help you interact with God in His word (we suggest writing thoughts/prayers/applications in a journal as you read).
- [The Jesus Story Book Bible](#) — It’s just the best. This is no “kids” book.
- 30 min. Sermon Video — [The Bible As a Single Story](#), by Tim Keller
- Seven Page Article: “The Story Line of the Bible”
- [Exploring the Story](#) — a super short, accessible booklet
- [The Drama of Scripture](#), By Craig Bartholomew
- The Bible Project 5min Video: [The Bible As One Story](#) (all of The Bible Project videos are fantastic, particularly the book by book videos).

As a starting point, we suggest purchasing an ESV Study Bible and a journal. Read the short article in the ESV Study Bible (see above #1). Use the SOAP reading guide (see “Personal Bible Study Resources” on this page) to guide your time in the word. Use your ESV Study Bible commentary to help you understand what you are reading. Any of the above resources will also give a great framework for the story of the bible as a whole.
