

12th May, 2016

Dear Pastor,

Warm loving greetings to you from Ps. Daniel !

By the grace of God and your constant prayers me and my family are doing well. Your prayers alone are enabling me and sustaining me to move forward in this ministry. The first quarter of the ministry God has immensely blessed all my efforts in reaching out to the surrounding villages with the gospel. God has been faithful to me meeting all the needs for the ministry and also on the family front. As a result of our ministry many new people are coming to know the Lord. Many are showing keen interest as they come to the church as a last resort to be delivered from demon possessions, idolatry, witchcraft and sickness.

The first quarter was able to visit 3 villages reaching out to 400 homes and visited the sick people and prayed for them. Also at the church we were able to conduct Bible Studies, Youth meetings, Friday special prayers. Through the above ministries two families have come to know the Lord personally and now they are attending the church regularly.

The new church at Badanapally is growing and my elder son is ministering to the new believers at this church. Please pray for the church construction at this place.

The HIV clinic is catering to the HIV patients who are regularly attending the clinic and receiving their monthly medicines. Please pray that the Lord would keep them in good health and strength and also give them a living hope in Jesus Christ.

The tailoring center has resumed back again. Thanks for your prayers for Martha who was very sick. Now she is doing much better and back in action to train the young girls in tailoring skills.

A boy by name Suresh a mentally retarded boy from a Hindu family has been completely healed and now coming to the church. He is from a Hindu background. They visited many doctors but nothing has helped him. The parents nor his relatives thought he would be healed. Since he would not be in his right mind, he used to beat his mother, and other siblings in his home and he became a big headache for the family and they did not know what to do. Trying everything and failed lastly they came to the church for prayers. And since the time he began to attend the church they observed a change in his behaviour which gradually now he is coming to his true senses and mental stability. We really thank God for this great miracle in the life of this boy who now alongwith his family is attending the church.

On the family front my wife and sons are doing well. Pray for my sons family who are serving the Lord at Badanapally church. Continue to uphold me in your prayers for my good health as I am diabetic.

I also would request you to for the floor mats. If you can send us money towards this we can purchase the plastic floor mats which approximately costs \$250. I truly appreciate your concern and genuine heart for the children of God and also for our congregation.

The church congregation, my family join with me in sending our love, thanks and greetings to each of you.

Thanks once again coveting your prayers.

In His Service,

Ps. Daniel
